Dear **Toby** - On the night you were born five owls appeared on a branch overlooking our celebratory dinner on the verandah. FIVE! Surely a good omen for your future! I hope you grow up to be a wise and sensitive protector of our beautiful, fragile country. Perhaps you'll be a passionate environmentalist (like M!). By 2032 I hope your generation has gained the wisdom to deal with climate change, sustainable use of energy and the needs of a just and fair society for all.

Travel well with much joy and laughter my darling. I wish you a life full of interesting challenges and great love. **Mia Leigh (M!) Glasscott**
